ROBERT DUSING

Dayton, OH | (513) 767-5368 | dusrj@protonmail.com | linkedin.com/in/robert-dusing-a95543259 | github.com/DuZii56

SUMMARY

IT support technician with 4+ years of enterprise help desk experience triaging and escalating network, hardware, and software incidents through ServiceNow. Hands-on background in DNS, VPN tunneling, subnet routing, and LAN administration. Targeting NOC and network technician roles.

TECHNICAL SKILLS

Networking: TCP/IP, DNS, DHCP, LAN/WAN, subnetting, VPN tunneling (Tailscale), subnet routing, mesh topology, firewall configuration, SSH, VoIP

Monitoring & Ticketing: ServiceNow, Pi-hole query logging, remote desktop support tools

Systems: Windows, Linux (Debian / Raspberry Pi OS), macOS, iOS, Android; Active Directory, Samba/SMB

Scripting: Python, Bash, PowerShell

Certifications: CompTIA A+ (in progress, expected Q1 2027); CS50P: Introduction to Python — Harvard via edX

PROFESSIONAL EXPERIENCE

Batteries Plus — Dayton, OH | *Assistant Manager* | *2023 – Present*

- Traced a recurring equipment failure on an Autonics TK4S-controlled heater system to an LCD profile overwriting controller values at startup, restoring reliable operation
- Managed and trained a team of 2 technicians on diagnostic and repair procedures
- Performed board-level repair on smartphones and tablets, including microsoldering of individual components
- Cut and programmed automotive key fobs, diagnosing transponder, immobilizer, and vehicle power faults
- Diagnosed and installed automotive batteries; refurbished power-tool battery packs and built custom battery assemblies

Atos — Loveland, OH | *Level 1 IT Help Desk Technician* | *2019 – 2023*

- Resolved an average of 75 tickets per day covering connectivity, hardware, software, and account access for enterprise end users
- Triaged and escalated incidents through ServiceNow, maintaining queue documentation and workflows that reduced repeat resolution time
- Diagnosed remote connectivity failures including VPN access, DNS resolution, and network authentication
- Mentored incoming technicians through onboarding

Batteries Plus — Cincinnati, OH | *Store Manager* | *2014 – 2019*

- Directed daily operations, inventory control, and staffing for a team of 3; established repair protocols adopted store-wide

TECHNICAL PROJECTS

Home Network Infrastructure

- Deployed Pi-hole v6 for network-wide DNS filtering; diagnosed and eliminated DNS leakage caused by secondary resolver fallback, Android Private DNS settings, and router-level DNS override behavior
- Configured a GL.iNet GL-AXT1800 as a Tailscale subnet router for secure remote access to internal network resources
- Designed a multi-node TP-Link Deco mesh network on a 192.168.68.0/22 LAN with a Raspberry Pi Samba NAS, automated device backup, and UPS-backed uptime protection

Market Arbitrage Tool — Python

- Forked and extended an open-source Python tool that identifies profitable buy/sell margins for Old School RuneScape items, adding new features and refactoring redundant logic across the existing codebase

Other: Gas-compensation calculator and turn-based strategy game in Python, custom high-performance PC builds, Android malware remediation

EDUCATION & LEADERSHIP

University of Cincinnati Clermont College — IT Studies, 2013 – 2014 | Coursework in Java, C++, networking, and system administration

Civil Air Patrol, U.S. Air Force Auxiliary — Second Lieutenant | Led security operations for public events; trained in search and rescue
